When is the digital switchover coming to me?

The digital TV switchover for Central, Anglia and Yorkshire TV regions is 2011.

The digital TV switchover is Government policy. It will mean that almost everyone will be able to receive digital TV through an aerial (Freeview).

Digital TV also uses less broadcast space which means that after switchover, there will be more room for new services such as wireless broadband, local TV and High Definition Television (HDTV).

To keep your TV service, you will need to convert your TV to digital before your area's switchover date.

All our TVs are digital switchover ready - is yours?
